

*Let us help  
keep your **RV**  
looking great  
inside & out...*

## WATER LEAK TESTING

*Avoid expensive structural, wood rot & mold damage.  
This service is recommended annually.*

### **What we do:**

- ◆ Generate a positive interior air pressure
- ◆ Apply soapy water solution to the outer skin
- ◆ Locate, mark & photo location of water leaks
- ◆ If leaking, a repair estimate will be provided

## ROOF SEAM CAULKING

*Manufacturers recommend this service annually.*

### **What we do:**

- ◆ Remove old caulking from seams and components
  - ◆ Clean seams with wax & grease remover
  - ◆ Apply new self-leveling seam sealer
- If needed, AC removal and gaskets will be extra*

## EXTERIOR WALL SEAM CAULKING

*Avoid expensive structural, wood rot & mold damage.  
We recommend this service annually.*

### **What we do:**

- ◆ Remove old caulk from windows, doors, vents, lamps
- ◆ Clean seams with wax & grease remover
- ◆ Apply new silicone seam sealer

## RUBBER ROOF PREVENTATIVE MAINTENANCE

*Manufacturers recommend this service annually to  
protect against dry-rotting & premature aging.*

### **What we do:**

- ◆ Clean rubber roof with specially designed cleaning agents
  - ◆ Apply UV-Blocking treatment to protect rubber membrane
  - ◆ Inspect caulking for cracks
- If needed, AC removal and gaskets will be extra*

**We Fix RVs**

## ROOF PATCH REPAIR

*Repairs of punctures, tears, and breaks that can  
occur in the rubber &, metal roofing up to 10 inches.*

### **What we do:**

- ◆ Clean the damaged surface area
- ◆ Cut a patch out of the same material as the roof
- ◆ Apply contact cement to the patch and damaged area
- ◆ Install the patch & apply butyl caulk to match the surface
- ◆ Coat the area with liquid roof to restore the seamless features of the original roof

## RUBBER ROOF REPLACEMENT

*We install BritePLY™ EPDM Roof Membranes.  
Recommended by RV manufacturers, they have superior  
puncture and tear resistance and are backed by the  
industry's only 12-year warranty.*

### **What we do:**

- ◆ Remove a/c, vents, sky lights
- ◆ Remove moldings and trim
- ◆ Remove rubber roof, screws, staples
- ◆ Inspect decking for water or impact damage
- ◆ Tape decking joints
- ◆ Layout & pre-fit new roof membrane
- ◆ Apply high quality Dicor bonding roof adhesive
- ◆ Install new Dicor Brite-Ply EPDM roof membrane
- ◆ Cut in all roof openings - a/c, vents, sky lights etc.
- ◆ Trim new roof membrane, length & width
- ◆ Install existing moldings & roof components with new gaskets
- ◆ Seal - caulk all roof seams & roof components
- ◆ Perform roof water leak test
- ◆ Clean and wash for delivery
- ◆ Provide written warranty & maintenance information

*Cost of damaged components, seals, and additional  
accessory R&I may apply.*

## LIQUID RUBBER ROOF

*Liquid EPDM is a lower cost alternative and is nearly  
identical chemically to sheet EPDM.*

### **What we do:**

- ◆ Wash & dry the roof surface
- ◆ Clean surface with a wax & grease remover
- ◆ Fasten loose areas
- ◆ Remove loosed coatings & caulk
- ◆ Apply Liquid Roof

## INTERIOR CARPET & UPHOLSTERY Steam Cleaning
